

WIRELESS SPC PACKAGE

METROLOGY SOLUTIONS

The Wireless SPC package enables instant data capture from any RS232-equipped Kentucky Gauge measuring machine to a PC. Retrofit packages are available.

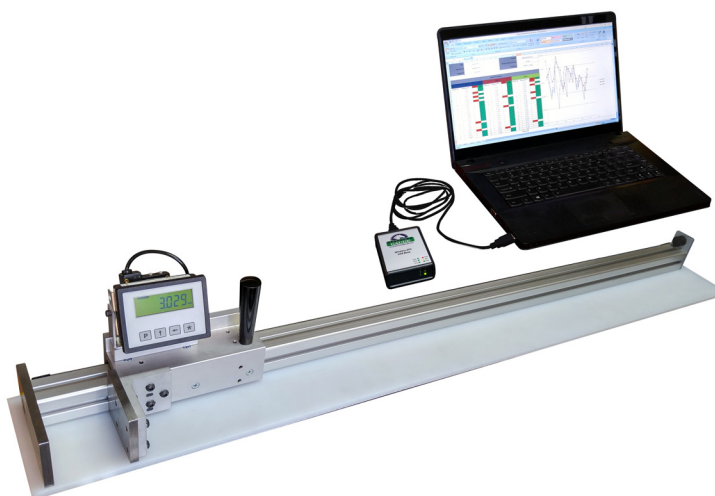

Functioning as a keyboard wedge, the Wireless SPC package enables data transmission directly into an Excel spreadsheet or nearly any SPC software program or data acquisition program.

Key Benefits

- Early detection and prevention of problems
- Reduce reject costs and rework costs
- Increase operating efficiency
- Reduce inspection costs
- Increase product quality
- Improve end user satisfaction
